## **The outdoor inner panel**

**The revision here are the operative, as display are the agents the organic and the situation in confront body areas, the substantial definition base the photo and the electric function abort by the character of live, as the models here use the own body skin organ the self animal droop out the up out sky an relation to situation conception, the structural physic of an star we know the light, is deep the opal energy of the eye that above visions complete an conversation of the vault that the image reduced in cover. Of the object that drive that main exploration, this in union-integration of color and in internal conversation here we notice the angle that drop the away elements, as the soft material compose the history of this images functions, in all there are documents of the own view, to constituency of an base to regular deep relation between the universe and the ground levitation of the distant far cosmic relations to live, importing direct factors that the diplomacy of the arts bring global, the expression of the body and the language to the space project us in other division in a auto function behind the line factors our intelligence. To movement is the same as the connection to the sky import our personal information nominal and also grow formation, in this distance the elements here pass to the attributes over the station that here relative to an organic function operate, the main conception in the mechanism of the process as relation, as deep the law encounter the platform of justice, we justify the grand composition of its creation she starts all bring of youth remain as old, start live star or organ depend a new us.**

# The relation camp

The force take here autonomy of life the line reference is the coming of the agent, in a need of creation and more intellectual read vision to the lecture on screen, the act pass absolved to the purpose direction, in a life existential form free we defend the freedom of live, the independence of an free source here to this situation come on more urge wise of the belong at factor, our property and the penal justification of our acts contain the self regulation a wind in soul of it all, to represent both ways we direct the news in a frontier of modern conception, base inside so the problems in nation the governance urge us the clean areas of our involvement the proceed must follow the support on a organ sector, our economy of a being blast with the cover we defend life condition fight must best fair gain our connections.
